Guest Lecturer: Clyde W. Yancy, MD, MSc, FACC

#### **A Brief History of the Carl J. Wiggers Memorial Lecture**

The Carl J. Wiggers Memorial Lecture was established in 1963, the year of Dr. Wiggers' death. He retired in 1953 as Chairman of the Department of Physiology at Western Reserve University. He was President of the American Physiological Society and wrote almost 400 scientific papers and eight textbooks. He founded the journal *Circulation Research* in 1952. His legacy, however, is that he trained many of the world's cardiovascular leaders. Carl Wiggers personally trained 38 department heads and/or research directors.

**About the 2014 Carl J. Wiggers Memorial Guest Lecturer**

*Clyde W. Yancy, MD, MSc, FACC*

Clyde W. Yancy, MD, MSc, is Magerstadt Professor and chief of the Division of Cardiology at Northwestern University Feinberg School of Medicine, and serves as associate director of the Bluhm Cardiovascular Institute at Northwestern Memorial Hospital. He also holds an appointment as Professor in the Department of Medical Social Sciences at Northwestern University Feinberg School of Medicine. In 2010, he earned a Masters of Science in medical management from the University of Texas Dallas School of Business and Management.

Dr. Yancy has active clinical and research interests in heart failure, heart transplantation, cardiomyopathies, hypertension, prevention and public health. He is broadly published with over 300 peer-reviewed publications in the medical literature.

Dr. Yancy is a fellow of the American College of Cardiology, a fellow of the American Heart Association (AHA), and a master of the American College of Physicians. He currently serves as a consultant to the National Heart Lung and Blood Institute. He is on the Advisory Committee to the Director of the National Institutes of Health. He chairs the FDA panel on cardiovascular devices and is a member of the Patient Centered Outcomes Research Institute (PCORI) Methodology Committee.

In 2009-2010 he served as National President for the American Heart Association and remains a national spokesperson for the American Heart Association. As a member of the American College of Cardiology he co-founded CREDO (the Coalition to Reduce Cardiovascular Disease Disparities), provides continuing medical education, chairs the Awards Committee and most recently served as chair of the 2013 ACCF/AHA Heart Failure Guidelines Writing Committee.

**Statement of Need**

Cardiovascular disease is the leading health care problem throughout the world. In the United States alone, an estimated 70 million people have been diagnosed with one or more forms of cardiovascular disease (CV), and over 910,000 Americans die from CV disease each year. The cardiac care team is increasingly asked to develop systems of care, the methods for which are not necessarily part of the traditional medical training. We are asked to do this better, faster, more efficiently and at a lower cost.

**Overall Goal**

Physicians and cardiac care associates are required to maintain up-to-date knowledge of the latest clinical developments in the practice of cardiology to improve patient outcomes. The overall goal of this activity is to increase learner competence by discovering strategies to anticipate research-driven changes in practice, to enhance professional growth, and to demonstrate efficacy in team based patient care practice as new clinical approaches and technologies change. The Ohio Chapter-ACC Spring Summit will include education that provides needs-based learning covering a thorough overview of palliative care in end-stage cardiac disease, syncope evaluation, cardiovascular drug interactions and adverse effects, prolonged QT syndromes, and heart failure in 2014.

**Learner Objectives**

Upon completion of this program, participants should be able to:

- Analyze the role of palliative and hospice care for the end stage cardiac patient.
- Discuss the interaction of pharmacological agents for the cardiovascular patient.
- Recognize the clinical and electrocardiographic features of long QT syndrome and recognize the treatment options.
- Integrate latest guidelines and evidence-based research in an effort to make appropriate therapeutic decisions to guide appropriate evaluation strategies of patients with syncope.
- Employ latest advancements in the management of the heart failure patient.

**Target Audience**

Adult Cardiologists, Pediatric Cardiologists, Cardiothoracic Surgeons, Cardiology Fellows-in-Training, Internal Medicine Physicians, Private Practice Physicians, Nurses, Nurse Practitioners, Clinical Nurse Specialists, Physician Assistants, Pharmacists

**ACCF Disclosure & COI Policy Statement**

ACCF/Chapter committee members, faculty, staff and other individuals who are in a position to control the content of this activity are required to disclose all real or apparent conflicts of interest. All relevant potential conflicts of interest that are identified are thoroughly vetted through a process that includes course directors and appropriate peer review by education committee chairs/members, for fair balance, scientific objectivity and validity, patient care and safety recommendations. Full disclosure will be published in the syllabus.

**Accreditation****Physicians**

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the American College of Cardiology Foundation and the Ohio Chapter of the American College of Cardiology. The American College of Cardiology Foundation is accredited by the ACCME to provide continuing medical education for physicians.

The ACCF designates this live activity for a maximum of 5.5 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should only claim credits commensurate with the extent of their participation in the activity.

**Nurses**

American College of Cardiology Foundation (ACCF) is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

The ACCF designates this educational activity for a maximum of 5.5 continuing education hours. Requirements for successful completion are attendance in a session in its entirety and completing the evaluation tool.

While offering CME and CNE credits noted above, this program is not intended to provide extensive training or certification in the field.

**Pharmacy Credit**

This program is certified for Continuing Pharmacy Education, via University Hospitals Case Medical Center, through the Ohio State Board of Pharmacy for .5 Continuing Education Units (C.E.U.) for Ohio Licensure only.

**Acknowledgment**

At the time of printing, a complete listing of industry supporters was not available. Appropriate acknowledgment will be made upon confirmation of support and at the time of the program.
